## Sample Letter

Dear Editor,

For 20 years, we've kept green buffers between our communities free of sprawl and strip malls with community separators. They complement the urban growth boundaries (UGB) around our cities by safeguarding rural landscapes in adjacent county lands. Now we need to renew and strengthen community separators for another 30 years. Otherwise we risk losing more farmlands and open space forever. Preserving our greenbelts means preserving our economy, environment, and public health. There is plenty of room to build housing for all in our towns and cities. Now is the time to let our supervisors know we support renewing voter protections for community separators with a ballot measure in November and vote to add priority lands this year.

Sincerely,  
Your Name
